

# SET Promotion Oy Environmental Policy

## 1. Purpose

The purpose of this Sustainability Resource Use Policy is to establish guidelines for the responsible and efficient use of resources by our company/team. This policy aims to minimize environmental impact, promote sustainability, and ensure compliance with relevant regulations.

## 2. Scope

This policy applies to all team members, contractors, and partners involved in the operations of our motorsport team, including events, workshops, and day-to-day activities.

## 3. Resource Use Objectives

- **Minimize Resource Consumption:** Reducing the use of resources such as energy, water, and materials.
- **Promote Sustainable Practices:** Implement sustainable practices in all aspects of company/team operations.
- **Ensure Compliance:** In accordance with **527/2014** Environmental Protection Act.
- **Reduce Environmental Impact:** Strive to minimize the environmental footprint of our operations.

## 4. Responsibilities

- **CEO:** Ensuring overall compliance with the resource use policy.
- **Sustainability Officer:** Overseeing the implementation of sustainable resource use practices and conduct regular audits.
- **Team Members:** Following the guidelines and procedures outlined in this policy.

## 5. Energy Use

- **Energy Efficiency:** Implementing energy-efficient practices, such as using energy-efficient lighting and equipment.
- **Renewable Energy:** Using renewable energy sources wherever possible, such as solar or wind power.
- **Monitoring:** Regularly monitor and report energy consumption to identify opportunities for reduction.

## 6. Water Use

- **Water Conservation:** Implementing water-saving measures, such as low-flow fixtures and efficient irrigation systems.
- **Recycling Water:** Using recycled water for non-potable purposes, such as vehicle washing and irrigation.

- **Monitoring:** Regularly monitor and report water usage to identify opportunities for conservation.

## 7. Materials Use

- **Sustainable Procurement:** Purchasing materials that are environmentally friendly, such as recycled or biodegradable products.
- **Efficient Use of Materials:** Optimizing the use of materials to minimize waste generation.
- **Recycling and Reuse:** Encouraging the recycling and reuse of materials wherever possible.

## 8. Waste Management

- **Waste Reduction:** Implementing waste reduction strategies, such as source reduction and efficient use of materials.
- **Recycling Programs:** Setting up designated recycling bins for paper, plastics, metals, and other recyclable materials.
- **Hazardous Waste Management:** Handling and disposing of hazardous wastes according to regulatory requirements.

## 9. Training and Awareness

- **Training Programs:** Providing training to all company/team members on sustainable resource use practices and the importance of reducing environmental impact.
- **Awareness Campaigns:** Conducting awareness campaigns to promote sustainability and resource conservation.

## 10. Monitoring and Reporting

- **Regular Audits:** Conducting regular audits of resource use practices to ensuring compliance and identifying areas for improvement.
- **Record Keeping:** Maintaining records of energy, water, and material usage.
- **Reporting:** Reporting on resource use performance to company team management and relevant stakeholders.

## 11. Continuous Improvement

- **Review and Update:** Regularly reviewing and updating this policy to reflect changes in regulations, technology, and team operations.
- **Feedback Mechanism:** Encouraging feedback from team members to improve resource use practices.

## Appendix

### A. Energy Conservation Tips

- **Lighting:** Using natural light where possible and switch off lights when not in use.
- **Equipment:** Turning off equipment when not in use and use energy-saving settings.
- **Heating and Cooling:** Maintaining optimal temperature settings and use programmable thermostats.

### B. Water Conservation Tips

- **Fixtures:** Installing low-flow fixtures in restrooms and kitchens.
- **Leaks:** Regularly checking for and repair leaks.
- **Irrigation:** Using efficient irrigation systems and water plants during cooler parts of the day.

### C. Sustainable Procurement Guidelines

- **Materials:** Choosing materials with a low environmental impact, such as recycled or biodegradable products.
- **Suppliers:** Working with suppliers who have sustainable practices.
- **Packaging:** Minimizing packaging and choose recyclable or compostable options.
